

“By using Intelligent IP-Surveillance from Aimetis, we were able to find a less costly and more effective approach to monitoring our construction sites.”

*Ger Heijen
Royal BAM Group*

Summary

BAM Sittard chooses Aimetis Symphony™ intelligent video management software to monitor and protect construction sites from theft and vandalism. Numerous trespassers were successfully detected.

Business Challenge

With construction material and labour costs on the rise, the Royal BAM Group required a cost effective solution in mitigating theft, vandalism and safety issues.

Solution

Hilson Group installs CCTV, Aimetis Symphony™ software on a PC, and a high-speed DSL connection in the site trailer. At night and on weekends, Symphony™ is configured to alarm on trespassers detected onsite and forward the alarm image through the DSL internet connection to the monitoring company. Leveraging the remote viewing capability, the monitoring company is quickly able to verify if the alarm is true or false and if further action is required. If trouble is detected, police are immediately dispatched.

As a result, numerous perpetrators were detected and many were apprehended by police, causing a decrease in costs associated with theft and vandalism. As compared to the cost of a full-time security guard, Aimetis Symphony™ software paid for itself within 12 months. “By using intelligent IP-Surveillance from Aimetis, we were able to find a less costly and more effective approach to monitoring our construction sites,” said Ger Heijen, Royal BAM Group.

Customer Profile - Construction

Royal BAM Group nv is active in the Construction and property, Civil engineering, Public-private partnerships, Mechanical and electrical contracting, and Consultancy and engineering sectors. With around 30,000 employees, BAM is responsible for the implementation of hundreds of projects every year.

Technology & Integration

- Aimetis Symphony™ software
- Analog CCTV cameras
- DSL internet connection for remote monitoring

Results

- Increased scalability of security personnel
- Reduced theft and vandalism
- Effective monitoring of health & safety compliance
